

Cheer Program Policies and Procedures 2025/2026

Purpose: Identify various activities that are to occur to support out program management of cheer annually. This provides a chronological order of events. Activities as well as policy & procedures to be followed by those participating in the cheer program. We will use a booster club style account to keep funds raised locally from fundraising and we will send out monthly email with \$0.00

These policies and procedures should and will be reviewed annually for necessary revisions and should be appropriately updated to align with new program and policy and cheer program updates where required.

Communications: make sure that all incoming emails have received a response with the most current cheer information. Make sure that all updated information is on the website. We will be sending out a mass email with some of our monthly local fundraising options funds raised for these local events will be placed in our booster account and can be utilized by the team as needs arise.

We also have the option to work with a non profit for fundraising and it is called SpiritLeading Inc and we are able to raise funds for the gym and individual girls and there is a small processing fee.

spiritleading.com. This way you guys can check it out and see what everything is about.

Meetings: we as coaches will attend all safety certification courses required and renew onetime and review the upcoming season handbook and safety guidelines as well as let all of the cheerleaders know of any changes and we will hold open house for parents and athletes interested in joining cheer.

Budget: go over our local fundraiser for the month and at the end figure out the profit and loss of the event.
